1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the Harrington references requires that the webs contain not less than 60 weight % of the hydrophilic fibers and there is no motivation found in that reference or the other references to decrease the amount of hydrophilic fibers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
